Australian Virtual Mobile	\$5.00	\$5.00
1300 Business Numbers	FREE	\$7.95
1800 Business Numbers	FREE	\$7.95

Information about the service

An internet connection is required for use of Crazytel Voice Over Internet Protocol Services, the quality of service may be affected by the Internet connection, firewall and other matters outside of the control of Crazytel. CrazyTel cannot be relied upon for emergency service. Calls to 1900, back to base alarms, fax services, and EFTPOS systems cannot be used with Crazytel Network unless specified. A single PSTN number may be ported to Crazytel, a one-off porting charge of \$11 per number. PLUS, a monthly number hosting fee of \$1.00 per Indian number including GST. Your former carrier may also charge a 'porting out' fee. Other Port requests and number ranges can be found at: <https://crazytel.com.au/inbound/Numbers/>

Connections to our SIP-Trunk network will automatically be routed to the closest Crazytel POP depending on your location. Crazytel has POPs in: Melbourne, Sydney, Brisbane, New Zealand & USA. Newly provisioned DIDs must remain active for a minimum of 30 days from the date of purchase.

000 Emergency Services

You can call 000 emergency services through all of Crazytel's SIP Trunking / PBX networks. However, it is recommended that you do this through a Mobile service or a physical PSTN landline if you have one available in the event you have to make an emergency call. Crazytel accepts no responsibility for you not being able to make or receive emergency calls while your service is unavailable regardless of the unavailable reason. We highly recommend that emergency calls are made from your primary landline or mobile service. VoIP, in comparison, can be susceptible to service disruption as it relies on third-party infrastructures such as your internet provider and electricity infrastructure. It is recommended that you have a non-powered telephone handset at your residence or business to make emergency calls in the unlikely event of a blackout/disruption.

Information about pricing and plan details

Minimum Term

The CrazyFree service is available on a 24-month contract terms.

Early termination Charges

If you cancel the service before the end of your contract term 24 months, Early Termination Fees (ETF) will apply. ETF is \$100.00 per plan regardless of how long you are inside of your contract.

Ownership of equipment

CrazyPhone will be locked to the Crazytel network during the contract period, if you cancel your service before the 24 Month contract and have paid the EFT of \$100.00 your equipment will be unlocked free of charge. Equipment is owned by Crazytel until contract has ended or ETF has been paid.

International calls are charged in 1 Second blocks. For full list of international call rates visit www.Crazytel.com.au international pricing page. International Pricing changes often due to exchange rates, you will not be notified, it is best to keep checking time to time on the Crazytel website. Crazytel has a number of 'blacklisted' countries that are not accessible due to known fraudulent call activity on IP phone lines. Please check the full International list on the website for details. .

Information about the service

All pricing on Crazytel website & Self Service Portals include GST.

An internet connection is required for use of Crazytel Voice Over Internet Protocol Services, the quality of service may be affected by the Internet connection, firewall and other matters outside of the control of Crazytel. Calls to 000 from the Crazytel network CrazyTel cannot be relied upon for emergency service.

Requires a ADSL2 / NBN / 4G / 5G connection. Not for telemarketing, call centre function and similar uses. Porting not available for all carriers. Each Handset/IP-Phone purchase has additional Postage & Handling Fee of \$10.00 per item.

Uptime Guarantee:

This applies if you have connected your service according to "Crazytel" minimum recommendations, which is with Quality Assured equipment (as shown on our hardware approved page on our website which can be found at www.Crazytel.com.au , a dedicated DSL2+(minimum) connection for the IP traffic and our hosted IPBX configured by our in-house team. The amount of downtime during a calendar month will be determined by Crazytel in-House network team and does not include any scheduled maintenance or upgrade outages. If this is more than 0.001%, on application, we will credit you double the value of the time that was down, dependent on the plan that you are on at the time of the outage. If your internet connection or local power supply is at fault this does not qualify.
